STAT

1. In response to your request to review the proposed Intelligence Community Legislative Program for the Second Session of the 99th Congress, the Defense Intelligence Agency requests that two revisions be made as follows (deletions stricken and additions underscored):

--99/2-10: Miscellaneous CIA, NSA and DIA Amendment

In light of the uncertainty created by recent case law concerning alcohol and drug abuse, the Director of the Central Intelligence may include in the proposed Fiscal 1987 Intelligence Authorization Act legislation to ensure that the Central Intelligence Agency, and the National Security Agency, and the Defense Intelligence Agency are able to continue to deal with security problems in the area of alcohol and drug abuse without regard to the provisions of any other law, rule, or regulation.

--99/2-24: At DIA's request, the Director of Central Intelligence may include an amendment to provide DIA the authority to pay for travel and related expenses in connection with obtaining necessary medical care for DIA civilian employees serving abroad equivalent to that now available to CIA, NSA, and Foreign Service employees.

2. We would appreciate inclusion of the above revisions and we will prepare the necessary statutory language for inclusion in the draft Intelligence Authorization Bill for FY '87.
